

**RECOMMENDED RESOLUTION FROM THE  
PLANNING & ZONING COMMITTEE OF THE  
BIG PARK REGIONAL COORDINATING COUNCIL  
REGARDING ZONING ORDINANCE AMENDMENT H19028  
BY YAVAPAI COUNTY DEVELOPMENT SERVICES  
June 13, 2019**

**RESOLVED**, that the Big Park Regional Coordinating Council Planning and Zoning Committee (Committee) recommends to the Big Park Regional Coordinating Council (Council) that metal panels be added to the definition of fencing in Section 301.

Yavapai County Development Services requested this change because requests for approval of metal panel fences have become increasingly common.

**FURTHER RESOLVED**, metal panel finish shall be either rusted steel or painted. Painted finishes shall have a maximum light reflectance value (LRV) of 36% within 12 months. Highly reflective surfaces are prohibited.
